# **SYED ASAR AMAN**

# **Full Stack Developer**

<u>Linkedin | GitHub | Portfolio | +923169920767 | asaraman278@gmail.com</u>

### **SKILLS:**

Languages: C++, Html, CSS, JavaScript, TypeScript, SQL

Technologies & Tools: ReactJS, NextJS, NodeJS, ExpressJS, MongoDB, Git, GitHub

#### **WORK EXPERIENCE:**

## Code Cue (Haripur - Pakistan)

Software Engineer(Full Stack) | January, 2023 - Febuary, 2024

- Worked in an Agile-driven environment to effectively maintain project timelines and utilize available resources.
- Managed website development projects from initial design through completion, optimizing all cross-browser and multi-platform compatibility.
- Expanded features, refined code, and improved processes, resulting in smoother operations and enhanced user engagement.
- Worked closely with programmers and clients to meet project requirements, goals, and desired functionality.

## Code Cue (Haripur - Pakistan)

Frontend Engineer | November, 2021 - January, 2023

- Built and maintained websites for clients using various technologies.
- Collaborated with design and product teams to implement UI/UX enhancements and optimize user interactions.
- Conducted thorough testing and debugging to ensure seamless functionality across multiple browsers and devices.

### **RELEVANT PROJECTS:**

## **Ecommerce Store**

- Built an e-commerce website to showcase products of furniture.
- Integrated features like advanced filtering, searching, shopping cart, and user authentication.
- Used ReactJS for this project.

#### Photo Restore

- Created an AI photo restoration website by integrating AI models where users can restore their old and blurry photos.
- Used NextJS for both the backend and frontend to complete this project.

#### **Job Management Website**

- Built a job management website with all the crud functionalities where users can keep track of all their jobs.
- Used technologies like ReactJS, Mongodb, expressjs, and nodejs to complete this project.

## **EDUCATION:**

2020 - 2024 | University of Haripur (Pakistan)

Bachelor of Science - Software Engineering

**Relevant Coursework:** Introduction to Programming, Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Operating Systems, Computer Networks, Software Design and Architecture, Advanced Data Structures and Algorithms, Information Security, Software Development and Construction

# **AWARDS AND CERTIFICATES:**

- **Mentor at Code Cue**: Helped students and working professionals improve their problem-solving, coding, and system design skills.
- Web Development Certificate on Udemy.
